Project Proposal

I choose the "Office TV Show Fans" as my first website project because I enjoy the show. This show offers witty humor, inside the corporate world atmosphere. As a foreigner and a student, I learned English, corporate culture. That is what inspired me to create the "Office Tv Show Fans." My website will have resources, quotes, images, and information about the cast. I want to create a website that has resources and funny images from the show. There will be information on where the user can watch the show as well.

Outline:

1. Home – (Top level – parent page)
 - a. Title and header
 - b. Navigation Bar and/or Menu
 - c. Background image of all the cast on the TV show
 - d. intro about the show
2. Syntax – HTML (child page)
 - a. Basic structure (sandwich): DOCTYPE, head, body, title, etc.
 - b. Tags:
 - i. Regular tags (<>/>)
 1. Headings: <h1></h1>, <h2></h2>
 2. List: ,
 3. Paragraph: <p></p>
 4. Dividers: <div></div>
 5. Hyperlink: <a>
 6. Button: <button></button>
 - ii. Special tags (</>)
 1. Images:
 2. Link: <link>
 3. Meta: <meta>
 4. Line break:

 5. Input: <input/>
 - c. Hierarchy
 - i. Parents: The main parent of the whole project is a <body> with a class of .container, making itself and children responsive. The sub-parents are the <div> <section>, and <footer>
 - ii. Children: All the content displayed on the website are the children of <div>, <section>, and <footer> which helps to divide the website and makes it responsive
3. Syntax – CSS (child page)
 - a. Selectors: html, body, img, ul, h2, li,
 - b. Properties: background, background-color, text-decoration, color, align-text, min-width, padding-bottom, font-family, font-size, padding-right, padding-left, margin-right, margin-left,

c. Classes/Id's: .nav, .menu, .main-title, .subs, .nums, .download-btns, .desc, .innergrid, .inner-p, .footer, .footer-list, .box-items, .sign-up-form, #btn, #home, #features, #download, #email,

d. Values: color: #ececce;, scroll-behavior: smooth;; margins: 0, list-style: none, font-family: sans-serif, text-decoration: none,

4. Styling (child page)

a. Colors & Background

i. For the background:

- Default background color is #ececce for everything unless specify
- Background image of is an image of casts in the office tv show.
- Casts section is has background color of #333333.
- Quotes section has background color of rgb(43, 176, 241);
- Streams section has background color of rgb(199, 222, 233);
- footer section has background color of rgb(60, 59, 59);

5. Michel Scott (section child of body)

p tag that get text from api call to Michel Scott quotes using button.

6. Streams availability (section child of body)

a. Table that show where you can watch the TV show, provide the price and link to the show in those streams.

7. Footer (section child of body)

a. The footer contains hyperlinked link to Instagram page of the office but the email, and privacy right and terms are not functional (are not real).
